News from the Principal

April 17, 2020

Happy Friday!

Student Contact

The Ministry of Education has directed schools that regular student contact must be recorded (instead of in-class attendance).

Our teachers are connecting with families in a variety of ways at this point including phone calls, email, Seesaw, and Google Classroom.

We have been told that:

At a minimum, teachers connect with and document the connection with students at least once per week by

- o Telephone
- o Email
- o Skype
- o Zoom
- o Google Classroom
- o Other methods as appropriate

If our teachers are unable to make a connection with your child, other members of our school will attempt to make contact with you, so please respond to our teacher emails at least once weekly to share progress or encourage your older children to be active members of the Google classroom.

We are in the process of procuring the ZOOM license from Focused Education and hope to be back up and running with the more secure version next week!
